CP7808 - King Charles
10x10 Computer Painted Freedom Cloth® Backdrop
Photograph by Jordan Chan

I have been using backdrops from Denny Manufacturing long before I even thought to join the family. It doesn't seem like it, but I've been in the photography business for 10 years. I started, like many, shooting only outdoors. As my career matured, I moved into and grew fond of working in a studio environment. I am fortunate to have a never ending supply of high-end, top quality backdrops to choose from. I've also ditched shooting on wasteful paper and have moved to photographing high key on white vinyl and dramatic portraits on elegant hand-painted backdrops. Besides, what's not to like about working in an air-conditioned room during a hot summer day in the south?

In my short 10 year career, I have failed a lot, but learning from these failures has made me a more confident person and photographer. Portraits we create must move us and speak to us. As photographers, we should constantly be learning and evolving to better our craft. Despite the technology used, we are still craftsmen, creating not just with our eyes and hands, but with our hearts as well. This is something that can never be taken away from us.

For the cover portrait, I used CP7808 - King Charles and low-key lighting. I wanted to show off the custom evening gown in classy but edgy elegant way. A single 70" umbrella was used to light the scene.

WHAT'S INSIDE...

HAND-PAINTED BACKDROPS

Our Hand-Painted Backdrops are of the highest quality and available in three different styles; Old Master (OM), Master Muslin (MM) and Foldable Twist Flex (TM). Be sure to reference your selection (OM, MM or TM) when ordering. As you will see, we have a wide range of color tones from high to low key that are sure to please your photographic needs. After many years of experience, we have mastered the most delicate of color change in our Hand-Painted Backdrops.

COMPUTER PAINTED BACKDROPS

Denny Freedom Cloth® backdrops! After years of research to find a lightweight, wrinkle-resistant fabric similar to muslin, we have found the special material! In addition to this fabulous material, the Computer Painted backdrops are available in a canvas material, TwistFlex™ Portable Backdrops and our Double-Sided Duet Backdrops.

SPECIALTY BACKDROPS

In addition to our Hand-Painted and Computer Painted backdrops, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backdrops, support systems and miscellaneous items can help your studio function at its best.

ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

QUICKSHIP BACKDROPS

We have a selection of Quickship backdrops that ship within 4 to 6 business days. The Quickship backdrops are size restricted: MM (Master Muslin) 10'x24', OM (Old Master) 7'x8' and TM (TwistFlex™) 6'x7'. These items may be ordered in quantities up to 3 and ship within 4 to 6 business days.

OUR SINCEREST THANKS

We would like to thank the professional photographers who contributed to this year's catalog. This publication wouldn't be the same without your help.

- Inform salesperson which bracket (ceiling or wall) is needed.
- All MTX-90 (90° corners) are 36" long.
- Each MTX-90 (90° corner) accounts for 1.5' of space each direction. To estimate track along one side using two MTX-90 (90° corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1.5' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6.5' Freedom Cloth® Track Section.
- A 10' wide Freedom Cloth® backdrop takes up 1' - 1.5' of storage space on the system.
- To hang your Freedom Cloth® backdrop, most prefer to use one MCH-15/MC-15 per foot of the backdrop.

UMBRELLAS, REFLECTORS & DIFFUSERS

Umbrellas

White Umbrella: This translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

UM36W (36")\$29.99 (S-1)

UM43W (43")\$34.99 (S-1)

Black & White Umbrella: The Black & White Umbrella allows virtually no light to pass through which brings about a very efficient light bounced to the subject.

UM36BW (36")\$49.99 (S-1)

UM43BW (43")\$54.99 (S-1)

Umbrella Softbox

The UMSB40D is a Light Diffuser which is commonly referred to as the "Brolly Box". This device conveniently attaches to a light in the same manner as an umbrella, then cinches around the faceplate to contain the light. The resulting light effect closely emulates that of a comparably sized softbox.

UMSB40D (40")\$79.99 (S-2)

Reflector Holder

The Reflector Holder attaches to most light stands for support of the reflector. Quickly releases from reflector and stand for a quick set up or take down. Holds reflector away from the stand about 2-3 inches and allows for it to be raised off the floor.

A QUICK OVERVIEW

Before You Order, You Should Know...

PICK YOUR SIZE & STATE IT CLEARLY

Width and height requirements are determined by your intended use and size of your subject group in relationship to your camera, lens configuration, lighting, accessories included in the shot and your overall style of photography. A helpful hint before ordering a canvas or any hand-painted backdrop; you should first format your intended photo shoot so that you can properly determine the size requirements of the backdrop you intend to use.

Width by Height dimensions should always be used.

SHIPPING INFORMATION

HOW MUCH WILL SHIPPING COST?

In order to serve you better, we have given every item in our catalog a shipping code (see chart below). This code will represent the amount you will pay for shipping and handling when the item is shipped from our facilities to you via UPS ground service only (our first choice). These prices and codes only apply to items that can ship via UPS. Some items of similar sizes are shipped together to reduce costs. For example, we will ship two 5' x 6' backdrops together in the same tube to save you money. However, not all items can be shipped together. Air freight or truck freight is individual. Ask your sales representative to assist you in what can and cannot be consolidated.

All shipping charges listed in this catalog are estimates. The actual cost of shipping is subject to change. All duties and taxes are to be paid by the recipient. All shipping codes/rates provided are limited to all Continental US states. For all other locations (Puerto Rico, Hawaii, Alaska and International Shipments), Please feel free to request a quote from a sales associate.

COMPUTER PAINTED BACKDROPS & FLOORS

Backdrop Buyer's Club members will save 20% on Computer Painted Freedom Cloth®, Canvas, Denny Duets Double-Sided Backdrops, Roll Up Floors™, Photo Carpet and 15% on Computer Painted TwistFlex™ Backdrops. Our **Computer Painted backdrops (page 5) & Photo Floors (page 70)** continue our tradition of giving you the very highest standard of quality. Photographic backdrops that were once inefficient and cost prohibitive to hand-paint are now possible thanks to our Grand-Format inkjet printing process. This technology not only allows

us to produce cost-effective products, but also makes digital imaging a very real and beneficial part of our creative productions. We can also create custom backdrops from your transparencies or reflective art, or even alter our backdrops to fit your specific needs. Please call for more information regarding custom work. All CPs are available in custom sizes upon your request, call for pricing information. **Width by Height dimensions should always be used.**

WINDOW-SHADE & KWIK CHANGE

One mounting choice is our window-shade style. We attach the backdrop you choose to a 1.5" diameter metal roller with an internal spring or a chain-drive metal roller giving you the ability to maneuver the backdrops like window shades. On this style, a lighter fabric is used in order to extend the retracting life of your roller. (See our portable and wall mounted system in the Specialty section of the catalog.) In selected sizes, you can choose any of our traditional hand-painted or computer-painted backdrops as window-shade backdrops. Please specify the backdrop size and the roller length when ordering. If you have any further questions, please contact our sales department.

Specify spring or chain drive system for your Window-Shade backdrops. Velcro® is included in the cost for the Kwik Change backdrop system.
